

Modular Casework

The RGX is the first of its kind on the market, offering a truly unique and innovative approach to casework design.

With its modular and reconfigurable design, it sets a new standard for flexibility and adaptability in casework solutions.

This modular casework design bolts together easily, reducing installation time and cost significantly.

And with its reconfigurable design, you can easily modify or expand your casework layout to adapt to changing needs. The RGX Modular Casework can even integrate with traditional millwork or wood casework, giving you the ability to seamlessly blend it in with your existing workspace. Additionally, RGX units can support plumbing and sinks in almost any configuration, providing flexibility and convenience.

Product Highlights

- RGX Components are reusable, replaceable, and can be expanded
- Depreciation is 7 years VS 39 years
- Fast Installation Process – Hours VS Days
- Easy to move vs fixed to the wall
- 2" Tubular Steel frames with steel side panels
- 17 Powder coat finish options
- Lead times as fast as 8 weeks
- Custom design is available upon request
- Made in Austin TX

You can choose from a range of options for doors and drawers, including Steel, Phenolic, and even wood, to perfectly match your aesthetic preferences. If you're looking for a casework solution that offers unmatched versatility, ease of installation, and cost savings, the RGX Modular Casework is the answer.
