

## Modular Casework

The RGX is the first of its kind on the market, offering a truly unique and innovative approach to casework applications.

With its modular and reconfigurable design, it sets a new standard for flexibility and adaptability in casework solutions.

This modular casework bolts together easily, which reduces installation time and cost.

And with its reconfigurable design, you can easily modify or expand your casework layout to adapt to changing needs. RGX can integrate with traditional millwork or wood casework, which gives the ability to seamlessly blend in with existing furniture. Additionally, RGX is fully capable of supporting plumbing and electrical like traditional fixed casework does.

### Product Highlights

- RGX Components are reusable, replaceable, and can be expanded (applies to aprons and knee space areas)
- 2" Tube Steel frames with steel side panels
- 15 Powder coat finish options
- Depreciation is 7 years vs 39 years
- Fast installation process – hours vs days
- Easy to move unlike fixed casework
- Made in Austin, TX

Choose from a range of options for work surfaces and front applications, including steel, phenolic, and HPL/LPL, to perfectly match your workplace aesthetics.
